Re: Supplemental System and Internal Control
Comments and Recommendations in conjunction
with audit for the year ended June 30, 2007

Honorable Members:

In planning and performing our audit of the financial statements of Lenox Township Library for the year ended June 30, 2007, we considered its internal control structure in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control structure. The following items are presented that could affect Lenox Township Library's ability to record, process, summarize and report financial data consistent with the assertions of management in the financial statements.

Assistance With the Preparation of Financial Statements

Governmental units often utilized the auditor to assist in preparing the financial statements. This is the case of the Library. Governmental units have followed this practice for expediency and the utilization of expertise in financial accounting and reporting. Recent changes in generally accepted auditing standards requires us to evaluate whether this is a potential control deficiency and report same if it is a significant deficiency or material weakness.

The foregoing practice may be a significant deficiency that could be remedied with certain initiatives. The initiatives might include ongoing communications between the Library and the auditor regarding accounting and reporting matters. This communication would be during the interim as well as year end. This is not far from current practice. In addition, a draft of the year end financial statements would be provided to the Library together with a checklist of significant reporting matters. The draft and checklist would be reviewed and signed off by the Library with auditor response to any questions.

Library Classification

The Library was formed under P.A. 164 of 1877. It remains a fund of Lenox Township even though the Library has an independent Board. The Library and the Township have properly adopted a system for the receipt and expenditure of Library funds through the Township Treasurer's Office.

Grant Revenues and Expenditures

During the year, the Library had acquired four computers via a grant from the Bill and Melinda Gates Foundation. The Grant monies were disbursed, and the computers purchased, through the Suburban Library Cooperative. Accordingly, the transaction was not recorded in the general ledger at the time of transaction. Generally Accepted Accounting Principles require that grant revenues and related expenditures be recorded in the general ledger at the time the transaction occurs. The transaction was recorded via an audit general journal entry. We recommend that procedures be designed and implemented to record such transactions.

Budgeting

P.A. 621, The Uniform Budgeting and Accounting Act, requires all budget adjustments be made prior to the fiscal year end. The Library should review the budget throughout the year and make adjustments accordingly. The Library has timely made budget adjustments prior to the end of the fiscal year as required, with the exception of insurance expense, which exceeded the line item budget by \$911.

Cash Management and Investment Policy

The Library believes that due to dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the Library evaluates each financial institution it deposits Library funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories. The Library should continue to monitor cash levels and the depository institutions and utilize additional institutions when practical.

Cash Disbursement Cutoff Procedures

It has been the Library's practice for the Treasurer to write checks separately from the Library's central accounting software. After the checks are written, a check register is produced and forwarded to the bookkeeper who records the activity as a general journal entry. Pursuant to our prior year recommendation, it appears that Library management has carefully monitored its cash disbursement activities to ensure that transactions are being cutoff at the proper period.

This report is intended solely for the information and use of the Board of Trustees, management, and others within the administration of the Lenox Township Library. This restriction is not intended to limit distribution of this report which, upon acceptance by the Board of Trustees, is a matter of public record.

We appreciate the cooperation of the Library staff and trustees during our audit.

Respectfully submitted,

BUSS & COMPANY, P.C.

INDEPENDENT AUDITOR'S REPORT

September 7, 2007

Board of Trustees
Lenox Township Library
New Haven, Michigan

Honorable Members:

We have audited the accompanying financial statements of the Lenox Township Library, a component unit of Lenox Township, as of June 30, 2007, and for the year then ended. These financial statements are the responsibility of the Library's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note I A, the financial statements present only the Lenox Township Library and are not intended to present fairly the financial position and changes in financial position for the year then ended of Lenox Township, County of Macomb, Michigan, in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of the Lenox Township Library as of June 30, 2007, and the changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis on pages 3 through 4 and budgetary comparison schedule on page 15, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Respectfully,

BUSS & COMPANY, P.C.

MANAGEMENT'S DISCUSSION AND ANALYSIS
June 30, 2007

Using this Annual Report

This annual report consists of three parts - *Management's discussion and analysis* (this section), the *basic financial statements*, and *required supplemental information*. The basic financial statements include information that presents two different views of the Library:

- The *government-wide financial statements* provide both *long-term* and *short-term* information about the Library's overall financial status. The statement of net assets and the statement of activities provide information about the activities of the Library as a whole and present a longer-term view of the Library's finances. These statements tell how these services were financed in the short term as well as what remains for future spending.
- The governmental fund financial statements include information on the Library under the modified accrual method. These *Fund Financial Statements* focus on current financial resources and provide a more detailed view about the accountability of the Library's sources and uses of funds.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplemental information* that further explains and supports the information in the financial statements.

Condensed Financial Information

The table below provides key financial information in a condensed format for the current year and prior year.

	<u>2007</u>	<u>2006</u>
Current assets	\$ 819,218	\$653,055
Capital assets	<u>191,269</u>	<u>188,413</u>

(Continued)

LENOX TOWNSHIP LIBRARY
New Haven, Michigan
MANAGEMENT'S DISCUSSION AND ANALYSIS, CONTINUED
June 30, 2007

The Library as a Whole

- The Library's net assets increased by \$169,135 this year. The primary reason for the increase is the continued growth of the Library's property tax base, which increased 10.1% from the prior year.
- The Library's primary source of revenue is from property taxes, which represents 83.7% of total revenue.
- Total expenses were 60.4% of total revenue for the year. Salaries amount to approximately 46.9% of total expenditures. Benefits amount to 14% of total expenditures.

The Library's Fund

Our analysis of the Library's fund is included on pages 7 and 9. The Library Board has the ability to create separate funds to help manage money for specific purposes, and to maintain accountability for certain activities, such as special property tax millages. All of the Library's activities are reported in a single fund.

The fund balance of the Library increased during the current year by \$166,279. The increase exceeded the budgeted increase of \$ -0- by \$166,279. Revenues exceeded budgeted amounts by \$69,869 due primarily to property taxes increasing more than expected and an increase in interest rates. Budgeted expenditures exceeded actual expenditures by \$96,410 due primarily to salaries and fringes not increasing as much as expected as well as expenditures for capital outlay being less than planned.

Library Budgetary Highlights

Over the course of the year, the Library Board amended the budget to take into account events that occurred during the year. The amendments made during the year simply reallocated certain budgeted expenses; there were no changes to total revenues or expenditures.

Capital Assets

At the end of the fiscal year, the Library had \$337,161 invested in buildings and improvements, furniture and fixtures, equipment, and books and materials. The Library added \$33,084 in new collection items consisting of new books, various audio/visual materials and furniture and equipment.

Economic Factors and Considerations for Next Year

The Library's tax base continues to increase with the growth of the Township. In light of our future plans, we need to continue to watch our budget very closely. Expenditures that will be especially important in the coming year include health insurance benefits which have shown significant increases in the last few years and employee compensation, because it is such a significant portion of the Library's operating expenses.

Contacting the Library's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the Library's finances and to show the Library's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the Library Director, at 58976 Main Street, New Haven, Michigan 48048.

Capital outlay - in excess of \$2,000	<u>33,084</u>	
Total		4,867

Proceeds from disposition of assets is recorded in the governmental funds; gain or loss on disposition of capital assets is recorded in the Statement of Activities (2,011)

CHANGE IN NET ASSETS - FULL ACCRUAL BASIS \$169,135

See accompanying notes to financial statements.

LENOX TOWNSHIP LIBRARY
New Haven, Michigan
NOTES TO FINANCIAL STATEMENTS
June 30, 2007

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Lenox Township Library (the "Library") conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The following is a summary of the significant accounting policies:

A. GOVERNMENTAL REPORTING ENTITY

The Library is located in Lenox Township, Michigan and is governed by an independent six-member board. The Library was formed under P.A. 164 of 1877 and remains a fund of the Township. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board and include only the results of operations of the Library.

B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The statement of net assets includes and recognizes all long-term assets and receivables as well as long-term debt and obligations. The Library's net assets are reported in two parts - invested in capital assets, net of related debt; and unrestricted net assets.

The statement of activities demonstrates the degree to which the direct expense of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes (1) charges to Library patrons who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meet the operational or capital requirements of a particular function or segment. Taxes and other items are not properly included among program revenues, and are reported instead as general revenue.

Fund Financial Statements

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Library considers revenue to be available if it is collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are considered to be susceptible to accrual and have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the Library.

The Library reports all of its activities in a single fund on the modified accrual basis.

(Continued)

LENOX TOWNSHIP LIBRARY
New Haven, Michigan
NOTES TO FINANCIAL STATEMENTS, CONTINUED
June 30, 2007

C. ASSETS, LIABILITIES AND FUND EQUITY

Cash and Investments - The Library has defined cash and cash equivalents to include cash on hand and demand deposits. Investments are reported at fair value.

Receivables and Payables - Property taxes receivable represent uncollected property taxes levied on December 1, 2006.

Lenox Township property tax is levied on each December 1st on the taxable value of property (as defined by state statutes) located in the Township. Taxes are considered delinquent on March 1 of the following year, at which time penalties and interest are assessed.

The 2006 taxable valuation of the Township totals approximately \$268.8 million, on which ad valorem taxes levied consisted of 1.2975 mills for Library operations, raising \$348,823 for Library operating purposes. The amount uncollected at June 30, 2007 is recognized in the financial statements as taxes receivable with an offsetting credit to deferred revenue. Taxes receivable has been reduced for amounts received during the year.

Capital Assets - Capital assets are defined by the Library as assets with an initial cost of more than \$2,000 and an estimated useful life in excess of one year. Due to the significance of the Library's annual acquisition of Library books and materials and the shelf life on most materials extended beyond one year, annual acquisitions of books and materials are treated as capitalized assets in order to spread their cost over their estimated useful life. Donated assets are reported at estimated fair market value at the date of donation. Additions, improvements, and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the following estimated useful lives:

Buildings	40 years
Furniture and equipment	7 years
Improvements	15 years
Library books and materials	7 years

Fund Equity - In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designation of fund balance represents tentative management plans that are subjective to change. At June 30, 2007, there is no reservation or designation of fund balance.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETS

An annual operating budget on the modified accrual basis of accounting consistent with generally accepted accounting principles is formally adopted for the Library. The budget can be amended by approval of the majority of the Board of Trustees. Amendments are presented to the Board at their regular meetings. All annual appropriations lapse at fiscal year end.

The budget has been adopted on a line item basis; expenditures at this level in excess of budgeted amount are a violation of Michigan law. A comparison of actual results of operations to the budget can be found in the supplemental information.

III. DETAILED NOTES

A. DEPOSITS AND INVESTMENTS

Michigan Compiled Laws, Section 129.91, authorizes the Library to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations which have an office in Michigan. The local unit is allowed to invest in bonds, securities and other direct obligations of the United States or any agency or instrumentality of the United States; United States government or federal agency obligations; repurchase agreements; bankers' acceptance of United States banks; commercial paper rated within the two highest classifications which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions which are rated as investment grade; and mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

The investment policy adopted by the Library in accordance with Public Act 20 of 1943 (as amended) authorizes investments in U.S. Treasuries, U.S. Agencies, instrumentalities, certificates of deposit, commercial paper (meeting certain rating and maturity requirements), investment pools and mutual funds. The policy delegates management of the investment program to the Lenox Township Treasurer pursuant to MCLA 41.76.

At year end the Library's deposits and investments were reported in the basic financial statements in the following categories:

Cash and cash equivalents	\$693,212
Investments	<u>107,349</u>
Total	<u>\$800,561</u>

The breakdown between deposits and investments is as follows:

Bank deposits (checking and savings accounts, certificates of deposit)	<u>\$800,561</u>
--	------------------

A. DEPOSITS AND INVESTMENTS (Continued)

The Library's cash and investments are subject to certain types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits - Custodial credit risk is the risk that in the event of a bank failure, the Library's deposits may not be returned to it. The Library does not have a deposit policy for custodial credit risk.

At year end, bank deposits were reflected in the accounts of the bank at \$809,400. Of that amount, \$300,167 was covered by federal depository insurance and \$509,233 was uninsured and uncollateralized. The Library believes that due to dollar amounts of cash deposits and the limits of FOIC insurance, it is impractical to insure all bank deposits. As a result, the Library evaluates each financial institution it deposits Library funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

B. CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2007 follows:

	<u>BEGINNING BALANCE</u>	<u>ADDITIONS</u>	<u>DELETIONS</u>	<u>ENDING BALANCE</u>
<u>CAPITAL ASSETS BEING DEPRECIATED:</u>				
Buildings and improvements	\$137,152	\$ -	\$ -	\$137,152
Furniture and equipment	29,148	4,400	11,260	22,288
Library books and material	<u>163,915</u>	<u>28,684</u>	<u>14,878</u>	<u>177,721</u>
	\$330,215	\$ 33,084	\$ 26,138	\$337,161
Accumulated depreciation	(141,802)	(28,217)	(24,127)	(145,892)
Net Book Value	<u>\$188,413</u>	<u>\$ 4,867</u>	<u>\$ 2,011</u>	<u>\$191,269</u>

IV. RISK MANAGEMENT

The Library is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries, as well as medical and workers' compensation benefits provided to employees. The Library has purchased commercial insurance to cover potential claims.

Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

V. DEFERRED COMPENSATION PLAN

The Library has adopted a deferred compensation plan created in accordance with Internal Revenue Code, Section 457. The plan permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or financial hardship.

The assets of the plan are held in trust as described in IRC Section 457(g) for the exclusive benefit of the participants (employees) and their beneficiaries and may not be diverted to any other use. In accordance with the provisions of GASB Statement 32, plan balances and activities are not reflected in the Library's financial statements.
